Summary

Computer Engineering undergraduate graduating in 2027 with hands-on experience developing full-stack, backend, and AI-powered applications. Proficient in **Java, Python, React, Node.js, FastAPI, PostgreSQL**, and **REST APIs**, with experience in scalable architectures, authentication, databases, and AI/ML integration. Strong foundation in **Data Structures, OOP, and problem solving**, demonstrated by a **Global Rank 2142 in TCS CodeVita**.

Technical Skills

Languages: Java (21), Python (3.12), TypeScript, JavaScript, SQL, C++

Backend & Architecture: Node.js, Express.js, FastAPI, Spring Boot, RESTful APIs, Microservices, System Architecture, JWT/OAuth

Frontend & UI: React 18/19, Next.js (basics), Tailwind CSS, Shadcn UI, HTML5, CSS3, Vite, Progressive Web Apps (PWA)

Databases & Cloud: PostgreSQL, Supabase, Firebase (Firestore, Auth), Neon DB, Cloudinary, AWS (EC2/S3 basics)

Testing, DevOps & Tools: JUnit, PyTest, Docker, CI/CD (GitHub Actions), Git, GitHub, Maven, Postman, Agile/Scrum

Education

JSPM's Bhivarabai Sawant Institute of Technology & Research | B.E. Computer Engineering — **Aug 2023 – Present**
CGPA: **9.29/10** (TY), 9.31/10 (SY), 10.0/10 (FY) — *Pune, India*

Jogeshwari Mata Junior College | HSC (Science) – **65.50%** (MHT-CET: **92.90%ile**) — **2022 – 2023**

Janata Vidyalaya Pimpri Sandas | SSC (State Board) – **84.81%** — **2016 – 2021**

Projects

LoanIQ – *Enterprise AI-Powered Loan Origination System* — **React, Node.js, FastAPI, Firebase, OCR, NLP**

- Engineered an AI-powered loan origination platform with automated underwriting workflows and role-based access control .
- Integrated biometric liveness detection and PAN card OCR data extraction, reducing fraudulent submissions by 45%.
- Streamlined the end-to-end loan approval lifecycle with an NLP credit risk engine, cutting manual verification turnaround time by **60%**.

CoralAI – *Deep Learning Coral Reef Health Mapping & Analytics* — **React, FastAPI, PyTorch, YOLOv8, Firebase**

- Developed an AI-powered ecological mapping platform to detect, segment, and assess coral reef health from underwater imagery.
- Trained and deployed a YOLOv8 and semantic segmentation (U-Net) pipeline achieving **91%+ mAP** for pixel-level coral classification.
- Architected a high-performance FastAPI backend with Leaflet GIS mapping, Firebase Auth/Firestore RBAC, and automated PDF reporting.

Mukti Portal – *Digital Trust & Verifiable Identity Infrastructure* — **React, Firebase, Node.js, Express, Flask**

- Architected a verifiable digital identity platform (VYOMA 2026) generating trust signals from verified work histories.
- Implemented secure cryptographic QR validation workflows and real-time state synchronization via Firebase Firestore.
- Designed resilient RESTful backend APIs with JWT auth and dynamic PDF generation, bridging the inclusion gap for informal workers.

Hackathons & Competitions

- **TenZorX AI Hackathon:** Designed *LoanIQ*'s architecture with OCR identity extraction and NLP analytics, cutting appraisal cycle by 50%.
- **VYOMA 2026 Competition:** Built *Mukti Portal* PWA with QR credential verification and real-time worker sync.

Professional Experience

Talent Battle Pvt. Ltd. – *Java & DSA Intern* — **Jul 2025**

- Engineered and benchmarked 20+ core data structure algorithms in Java (Trees, Graphs, DP).
- Built 5+ modular, reusable Java components adhering to OOP and SOLID principles, cutting redundant utility code by 20%.

Oasis Infobyte – *Java Development Intern* — **Aug 2025 – Sep 2025**

- Developed 4 modular Java applications following MVC architecture and SDLC principles, implementing **JUnit** test suites with 80%+ code coverage.

Accomplishments

- **Global Rank 2142 in TCS CodeVita** – International Coding Contest by Tata Consultancy Services (TCS), outperforming 100K+ participants.
- Earned **100 Days LeetCode Consistency Certificate** across core DSA, and qualified competitive rounds in **MaTPO Aptitude Idol 2025**.
