

Shivshankar Dhareppa Mali

Software Engineer — Full Stack Developer — CSE Undergrad (2027)

📍 Pune, Maharashtra – 412207, India | 📞 +91 9370717823 | ✉️ shivashankrmali7@gmail.com
🌐 LinkedIn | 🐙 GitHub | 🚀 LeetCode

Summary

Third-Year Computer Engineering student specializing in **Full-Stack Development and AI integration**. Experienced in building scalable enterprise systems, real-time architectures, and machine learning pipelines using **React, Node.js, FastAPI, Java, and PostgreSQL**. Demonstrated success in national-level hackathons and prototype competitions, emphasizing clean architecture, high-performance APIs, and secure deployment.

Technical Skills

Languages: Java (21), Python (3.12), TypeScript, JavaScript, SQL, C++

Frontend & UI: React 18/19, Tailwind CSS, Shadcn UI, Vite, Progressive Web Apps (PWA)

Backend & APIs: Node.js, Express.js, FastAPI, Spring, Servlets, RESTful Architecture

Databases & Cloud: PostgreSQL, Firebase (Firestore, Auth), Supabase, Cloudinary, Neon

AI/ML & Tools: OpenCV, EasyOCR, Scikit-Image, NLP, Docker, Git, GitHub, Maven

Education

JSPM's Bhivarabai Sawant Institute of Technology & Research | B.E. Computer Eng. **Aug 2023 – Present**
CGPA: 9.31/10 (SY), 10/10 (FY) *Pune, India*

Jogeshwari Mata Junior College | HSC (Science) – 65.50% (MH-CET: 92.90%) **2022 – 2023**

Janata Vidyalaya Pimpri Sandas | SSC – 84.81% **2016 – 2021**

Projects

LoanIQ – Enterprise AI-Powered Loan Origination System **React, Node.js, Firebase, OCR, NLP** | 🐙

- Engineered a digital lending platform with automated underwriting and strict role-based access control.
- Integrated biometric liveness detection and PAN card OCR extraction to strengthen fraud prevention.
- Developed an NLP-driven AI evaluation engine for applicant risk profiling and credit scoring logic.
- Streamlined the loan approval lifecycle, reducing manual verification time through automated AI risk workflows.

VisionKirana – AI-Powered Micro-Lending Intelligence **React 19, FastAPI, PostgreSQL, OpenCV** | 🐙

- Built a fintech PWA to dynamically assess unbanked store loan eligibility using computer vision.
- Deployed an OpenCV/EasyOCR microservice automating inventory evaluation and invoice validation.
- Architected a FastAPI backend with PostgreSQL, stateless JWT auth, and robust background queues.
- Empowered small retailers with data-driven credit capabilities, ensuring secure and scalable transactions.

Mukti Portal – Digital Trust Infrastructure **React, Firebase, Node.js, Flask** | 🐙

- Developed a digital trust ecosystem (VYOMA 2026) generating trust signals from verified work history.
- Implemented secure QR validation workflows and real-time gamified leaderboards via Firebase.
- Designed an AI government scheme matcher and integrated dynamic PDF generation for work records.
- Bridged the financial inclusion gap for informal workers by prototyping a verifiable digital identity platform.

SkyBanking – Enterprise Banking System **Java 21, PostgreSQL, Servlets, Stripe** | 🐙

- Architected a secure banking app featuring P2P transfers, OTP verification, and role-based monitoring.
- Enforced strict security using BCrypt hashing, prepared SQL statements, and ACID transactions.
- Engineered a robust transaction pipeline to handle concurrent financial operations with zero data anomalies.

Hackathons & Competitions

TenZorX AI Hackathon (Team CodeStorm) *LoanIQ (AI Lending Platform)*

- Engineered the comprehensive LoanIQ architecture, integrating biometric validation and NLP-driven credit analytics.

VYOMA 2026 – National Level Prototype Competition *Mukti Portal*

- Designed a full-stack progressive web app focusing on social and financial inclusion through verifiable digital identity.

Internships

Talent Battle Pvt. Ltd. – Java & DSA Intern **Jul 2025**

- Strengthened core Java and OOP concepts by implementing foundational Data Structures and optimizing algorithms.

Oasis Infobyte – Java Development Intern **Remote**

- Built modular Java applications following clean code principles and industry best practices.

Accomplishments

- Secured Global Rank 2142 in TCS CodeVita – International Coding Contest by Tata Consultancy Services (TCS).
- Completed the 100 Days LeetCode Challenge and participated in the MaTPO Aptitude Idol 2025.
